Professional Summary

Aspiring AI and Data Analytics professional with foundational experience in Machine Learning, NLP, and Exploratory Data Analysis through industry internships. Currently gaining hands-on exposure to AI automation workflows while strengthening skills in Python, SQL, and data visualization. Motivated to build practical, data-driven solutions and grow in real-world AI and analytics environments.

Experience

AI Automation & Data Analytics Extern – *Outamation* | Feb 2026 – Present

Python | RAG | OCR | Document Processing | AI Automation (Learning Phase)

- Currently gaining hands-on exposure to OCR-based document processing and AI automation workflows for large mortgage documents.
- Assisting in building and testing data extraction pipelines using Python and PyMuPDF.
- Learning document retrieval concepts and LLM evaluation through guided projects and externship labs.

Data Analytics Extern – *TruBridge Healthcare*

Python | SQL | Power BI | Excel

- Analyzed healthcare datasets using Python and SQL; cleaned data and created Power BI dashboards for actionable insights.
- Reduced data inconsistencies by 30% through preprocessing and transformation.
- Built visual reports and dashboards to support data-driven decisions.

AI Engineering Intern — *Wipro*

Python | AI Systems

- Contributed to AI-driven compliance monitoring aligned with GDPR, HIPAA, and ISO 27001.
- Integrated OpenAI APIs for chatbot-based querying, reducing manual effort by 40%.
- Improved system reliability through testing, debugging, and modular development.

AI Project Intern – *Infosys Springboard*

Python | NLP

- Built speech analysis pipelines for pronunciation and fluency assessment.
- Implemented speech-to-text and phoneme-level feature extraction.
- Applied modular coding for maintainable Python NLP components.

Projects

Riya — AI Chatbot | *Hugging Face Transformers, Gradio*

- Developed a **text-and-voice chatbot** featuring persona-based dialogue and real-time text-to-speech
- Implemented conversational AI using transformer-based language models and Gradio for interactive UI.
- Improved user experience by refining dialogue logic and response handling.
- *GitHub Repository Link*

Automatic Music Generator | *Python, Deep Learning (LSTM)*

- Built an **AI music generation model** to compose tunes based on genre and mood using LSTM neural networks.
- Performed audio preprocessing and feature extraction for sequential model training.
- Tested generated outputs for consistency and quality.
- *GitHub Repository Link*

Diabetes Risk Analysis| *Work-Based Analytics Project*

- Analyzed the **Kaggle Diabetes Dataset** using Python to study glucose, BMI, and clinical factors.
- Performed data cleaning, feature exploration, and EDA.
- Built visual analyses to identify diabetes risk indicators and support data-driven insights.
- *Analysis Dashboard Link*

Technical Skills

Programming: Python, SQL
CS Fundamentals: Data Structures & Algorithms, Operating Systems, Computer Networks
Data Analysis & Visualization: Power BI, Excel, Pandas, NumPy
AI/ML: Classification, Regression, Clustering, Model Evaluation, NLP, LLMs
Frameworks & Tools: Pandas, NumPy, Scikit-learn, TensorFlow
Cloud & Dev Tools: AWS (EC2, S3), Git, GitHub, Jupyter Notebook, Linux/Unix

Certifications

Artificial Intelligence – *Infosys Springboard* - *View Certificate*
Google Data Analytics Professional Certificate— *Coursera (Google) — Ongoing*
The AI Engineer Course 2025: Complete AI Engineer Program – *Udemy (365 Careers) — Ongoing*
Managing the Company of the Future – *Coursera (University of London)* - *View Certificate*

Competitions

NCIIPC Startup India AI Grand Challenge
Responsible AI for National Security:

- Developed **SecureCode AI** — an LLM-based, multi-language vulnerability detection system with context-aware flaw identification (SQLi, Buffer Overflow, Hard-coded Credentials) and CWE/CVE-mapped severity classification.

Education

JSS Science and Technology University, SJCE — **Nov 2022 – Jul 2026**
BE, Information Science and Engineering — CGPA: 8.71
Mysuru, Karnataka

New Baldwin Independent PU College — **May 2021 – Jun 2022**
II PUC – PCMC (Physics, Chemistry, Mathematics, CS) — Percentage: 90.83%
Bengaluru, Karnataka

New Baldwin International School — **Apr 2019 – Mar 2020**
10th with Science, Computer Applications, ICSE — Percentage: 92.67%
Bengaluru, Karnataka

Leadership & Activities

Volunteer, Linux Campus Club (LCC), SJCE – 2024

- Demonstrated technical projects during JSS Open Day and supported event coordination.

Interests

Software Engineering | Artificial Intelligence | Creative Thinking | Poetry | Badminton
